

Ordering is as simple as 1...2...3

Sign your name several times on a blank piece of paper.

A liquid ink pen like a roller ball or fine line plastic tip pen works very well. Ballpoint pens tend to skip and do not generate as good an image. Felt tip pens may make the signature too bold. (If you are ordering a signature for a DOS application, be sure to make your signature the same size you want it to be.)

Indicate which signatures you want with a check mark.

Put a check mark next to the signatures you want. Do not cross into the signature itself. Print the person's name on the page. This will be the font name.

Fill out the order form below and mail it with your signature samples to:

Via Mail: Orbit Enterprises, Inc.
P.O. Box 2875
Glen Ellyn, IL 60138

Answers to Frequently Asked Questions!

Q. *DO I NEED A DIGITIZED SIGNATURE?*

A. Yes, if you find yourself signing letters instead of doing something productive, or Yes, if you send faxes directly from your computer.

Q. *WILL IT WORK ON MY COMPUTER?*

A. Yes, if you use a PC with Windows, or MS-DOS, or a variation of Unix.. With Windows you can use any supported printer. If you are using DOS or UNIX applications, you need an HP LaserJet or PCL compatible printer. Digitized signatures can be used in other configurations. Please call 1-800-767-6724 if you have any questions.

Q. *IS IT HARD TO USE A DIGITIZED SIGNATURE?*

A. Not hard at all. For Windows applications, simply type a few characters, select the characters, and change to the signature font. You can then change the size, by changing the font size. For DOS or UNIX applications, simply enter a short printer command in your document where you want the signature to appear.

Q. *HOW LONG DOES IT TAKE TO GET MY SIGNATURE PROCESSED?*

A. Signatures are typically processed in three to five working days. Please allow adequate time for delivery to and from Orbit Enterprises, Inc.

Q. *WHY WOULD I NEED MORE THAN ONE SIGNATURE?*

A. How many ways do you sign your letters? Perhaps sometimes as "Joseph A. Smith," sometimes as "Joe Smith," and sometimes as "Joe," and sometimes just your initials. Right now you sign letters differently depending on the recipient. You may want the same flexibility with your digitized signatures.

Q. *HOW DO I KNOW THAT I'LL BE SATISFIED WITH MY SIGNATURES?*

A. We guarantee it! We stand by our product 100%! We offer a 30-day, money back guarantee and phone support. As a matter of fact, most of our business is from repeat orders and referrals from satisfied clients.

Q. *WHEN I DO MY MAILING, PROCESSING TIME IS CRITICAL. HOW MUCH WILL A DIGITIZED SIGNATURE SLOW DOWN MY PRINTING?*

A. Not at all!

Q. *WHAT DO I GET WITH MY ORDER? DO I NEED ANYTHING ELSE?*

A. You receive your image files by downloading them from our web site, or by receiving a 3 1/2" diskette in the mail. Everything you need will be included.

Q. *I WILL SOON BE DOING A MAILING. CAN I FAX MY SIGNATURE TO SAVE TIME?*

A. No. The quality of a faxed signature is not good enough to produce a high quality product.

Q. *IS THERE ANYWAY I CAN GET IT FASTER?*

A. Yes. Send your signature via overnight courier. We can return your signature electronically or if you desire, we can send your diskette back via courier. Include your courier account number or call for current shipping costs. In addition, we can expedite your order for same day processing for a 25% surcharge when the order is received in our office by 10:30 am. Please call first to schedule your order.

Q. *I OFTEN PRINT MY LETTERS ON TWO PRINTERS AT THE SAME TIME. DO I HAVE TO ORDER TWO COPIES OF THE SAME SIGNATURE?*

A. No! You can use your digitized signatures on several printers or networks at the same time. We make no restrictions.

Q. *WHAT OTHER SERVICES DO YOU OFFER?*

A. We can also digitize your logo or other items. Please mail or fax a copy for a no obligation quotation. Be sure to tell us what software you will be using.

Q. *WHAT "FORMAT" DO I NEED?*

A. If your software uses TrueType fonts, such as Word, order the TrueType version of your signature. If you use MS-DOS or UNIX programs, order the HP LaserJet format for DOS. If you need both formats, use the Combination pricing.

If we confused you, give us a call at 1-800-767-6724 or email us at info@digitize.com.

Signature Signing Form

This page is provided as a guideline for signing your signature. By fitting your signature(s) within a box, your signature will be a somewhat normal size which will produce the best quality digitized signatures.

DO NOT SIGN on this page. Place a blank piece of paper on top of this page and sign on the blank page. Or turn this sheet over and sign on the blank side. If you sign on this side of the page and your signature crosses into the lines, it will affect the final quality of your signature files.

You only need to sign once, but many people prefer to sign several times and choose the one they like the best. If you sign more than once, please put a check mark or arrow next to the signature you would like us to use.
